

# IMMERSION VIBRATORS

## (Concrete Pneumatic Poker Vibrators)

VL25 VL35 VL45 VL55 VL75 VL87

**Our pneumatic poker concrete vibrators are designed for use in concrete construction to provide improved concrete consolidation.**

**High performance vibration equipment for every application**

Over the past 40 years, PneuVibe have developed high quality vibrators engineered to withstand the harshest treatments, all while being easily maintainable and simple to use.

Our pneumatic concrete vibrators vibrate fresh concrete so it becomes liquified, filling any air pockets, resulting in superior concrete integrity with greater strength and a reduced chance of cracking or crumbling.

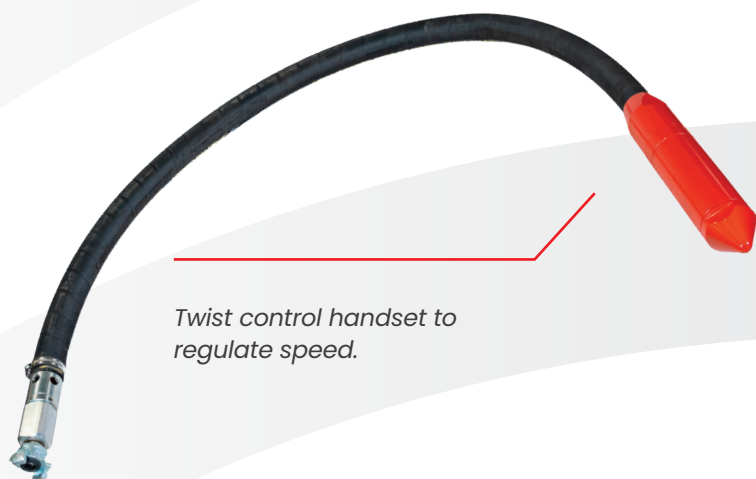

**PNEUVIBE Air Tools are  
manufactured in Australia**

## SPECIFICATIONS

MODELS	VL25	VL35	VL45	VL55	VL75	VL87
Head Diameter (mm)	25	35	45	55	75	87
Head Weight (kg)	0.7	2	2.6	4.7	8.8	10
Head Length (mm)	254	270	321	353	398	415
Frequency (vpm)	21000	18000	18000	17500	16000	14000
Placement (m <sup>3</sup> /h)	5	15	20	35	45	50
Air Consumption (l/min)	360	450	640	850	1200	1400
Hose Length (m)	2	2	2	2	2	2
Force (n)	653	1665	3200	6602	14016	17750
Total Weight	2.5	4	6.5	9	15	18
PVH85	85	1415	39	1360 / 48		7 bar

*Twist control handset to regulate speed.*

*Bearing-less turbine assembly with twin hosing for air feed*
